                    Linda Anderson
                    Market Conditions

1:30 pm – 1:45 pm  Future Directions

2:15 pm – 3:30 pm  University Housing
April 3, 2007

To: Members of the Task Force on Living and Learning at NC STATE

From: Kay Moore, Chair of the Task Force and Dean, College of Education

Tim Luckadoo, Associate Vice Chancellor for Student Affairs

It is hard to believe that it has been almost five years since the Task Force on Living and Learning at NC STATE issued its first report. As you probably recall, that report made a number of recommendations related to the program and facilities of University Housing. This Task Force was a very active, productive group and the recommendations have truly made a difference on our campus.

One of the most important recommendations from the Task Force related to the creation of living and learning villages across campus. The term “village”, suggested by Coach Kay Yow, was adopted to connote the creation of a community environment that would support activities for students, faculty, and staff. You will be pleased to know that six living and learning villages are now in existence, with a seventh on the way in the fall. Detailed information about each of these villages is included in this notebook.

Another recommendation from the Task Force was to increase the student bed count on campus. Since the issuance of the report, University Housing has constructed Wolf Village, a 1208 bed $80 million complex that serves upper division and graduate students. University Housing has also purchased the Western Manor apartment complex to serve the same population. Other significant facility additions and improvements have been accomplished and are included in this report.

It is important that we periodically review the status of our campus living and learning environment to ensure that we are on the right track. For this reason, we have asked you to convene for a five-year review. We believe that this will be another step in the direction of enhancing student learning and development on our campus. We hope that this meeting will result in additional, exciting ideas to help University Housing over the next five years.

Thank you for your willingness to serve on this very important body. We look forward to hearing your ideas and feedback.

Cc: Larry Nielsen, Provost
    Tom Stafford, Vice Chancellor
University Housing Fact Sheet

- Between 2003 and 2006, 3,976 individual students have resided in our living and learning villages. Many other students have benefited from association with the Villages.
- Currently, 2,229 beds (26%) of our residential space is devoted to living and learning villages.
- The number of students completing the spring 2007 Housing Application Renewal Process for 2007-2008 increased 7% for a total of 3,357 returning students.
- We currently house 34% of full-time undergraduate students.
- The residents of ES King Village apartments are 91% graduate students and 69% international, the largest numbers from South Korea, China, India, Egypt and Japan.
- All residence halls and Wolf Village Apartments have high-speed Internet connections.
- All residence halls rooms and Wolf Village Apartments are air-conditioned.
- All residence hall rooms and Wolf Village Apartments are equipped with sprinkler and state of the art fire suppression systems.
- Residential facilities include seven computer labs with approximately 200 workstations.
- University Housing capacity for fall 2007 is 8,267:
  - Residence Halls 6,551 beds
  - Wolf Village 1,204 beds
  - ES King Village 294 apartments
  - Western Manor 118 apartments
- We housed 77% (3,532) new freshmen from the fall 2006 freshmen class. This is the largest number of new freshmen ever housed.
- Gender breakdown is 43% women and 57% men (residence halls and Wolf Village)
- University Housing Room Styles
  - Suites 2,256 beds
  - Corridor 3,426 beds
  - Doubles off breezeway 890 beds
  - Four bedroom apartments 1,204 beds
  - Studio, one and two-bedroom apartments 412 units
- Fall 2006 Breakdown By Class (residence halls and Wolf Village)
  - Freshmen 48%
  - Sophomore 23%
  - Junior 16%
  - Senior 12%
  - Graduate 1%
- Fall 2006 Breakdown By Ethnic (residence halls and Wolf Village)
  - Caucasian 5,297 74%
  - American Indian/Alaskan Native 31 0%
  - African American 1,042 15%
  - Asian/Pacific Islander 434 6%
  - Hispanic 196 3%
  - Unknown 182 2%
Village Vision and Philosophy

Learning doesn’t take place only in the classroom. Living and learning villages provide environments in which students can pursue their academic goals in close partnership with mentors, professors, and others who share the same interests.

Chaired by Dean Kay Moore, The Task Force on Living and Learning was convened in September 2001 to help plan for a future that involves enrollment growth as well as changes in academic programs and physical facilities at NC State. The Task Force proposed a vision and guiding principles for University Housing that would meet future housing needs and enhance the educational experience and performance of students for generations to come.

The Task Force completed its work in August 2002. The Task Force findings were presented in the Report from the Task Force on Living and Learning at NC State. What emerged as a result of these recommendations has changed the scope of housing options for NC State students. Seven living and learning villages have been created to offer residents exciting opportunities to meld classroom learning with related extra-curricular activities for rich, value added university experiences. From 2003 – 2006, 3,976 students have benefited from living in, and participating in, these villages. Many other students have been impacted by their interaction with the Villages. Following is a brief overview of the Village vision and philosophy from the report, followed by a one-page review of each of the seven Villages.

Vision for Living and Learning Villages

Residential villages enhance the student learning experience at NC State by supporting and integrating the academic and personal development of students. A rich variety of villages offers opportunities for students to engage in active and collaborative learning with peers, faculty, and staff. Frequent formal and informal interactions foster a sense of community and an intellectually stimulating environment that set the stage for student learning and success.

Guiding Principles

1. **Support the University’s mission and vision.**
   
   Villages contribute to the University’s goal of excellence in undergraduate and graduate education and to the University’s aspirations for national prominence.

2. **Optimize student learning.**
   
   Residential facilities and programs create an intellectually stimulating environment where living and learning are intertwined, promote higher levels of student success, and foster a commitment to lifelong learning.

3. **Support students through developmental stages.**
   
   Continue to expand services and programs that enhance the elements of community building and student development.

4. **Create a discernible sense of community.**
   
   Villages are inclusive communities that promote civic engagement, service learning, and leadership opportunities.
5. **Succeed through partnerships with faculty.**
   Villages are inspired and sustained through lively partnerships with faculty and academic programs, and motivated by the common enterprise of discovery.

6. **Reflect an efficient business model.**
   Sound fiscal planning, creative sharing of resources, and outside partnerships ensure the financial health of villages.

7. **Improve through ongoing assessment.**
   Villages are managed and improved through a commitment to an ongoing assessment and planning process, including input from faculty, staff, and students.

**A village is a place where**

**People of diverse backgrounds and perspectives live, work, and learn together.**
A village is inclusive, diverse, and accessible. Encouraging people of diverse backgrounds to interact and work together is an important way to broaden horizons and increase student learning.

**Students, faculty, and staff interact frequently, both formally and informally.**
Academic programming is designed to encourage interactions among students, faculty, and staff. In addition, other aspects of villages (dining, convenience services, fitness/recreation facilities, and social opportunities) set the stage for many kinds of informal interactions.

**Students feel supported as members of a community.**
Villages provide a home for students within our large, complex university. Students learn how to access support services and how to move through a variety of transitional points. Villages give students a feeling of belonging and connectedness, and prevent them from becoming isolated.

**Partnerships drive planning, implementing, learning, and teaching.**
Villages will be designed, guided, and assessed by teams consisting of students, faculty, Student Affairs staff and others from inside and outside the University.

**Programs and services act as a magnet for all members of the University community.**
Innovative and multi-disciplinary curricular and co-curricular programs and services attract students, faculty, and staff from across the campus.
Task Force Recommendations – Update

The 2001 – 2002 Task Force on Living and Learning at NC State outlined eight recommendations for University Housing. The recommendations are presented below with updates as of Spring 2007.

1. The University as a whole accepts and endorses this report as the foundation for mutual action to advance living-learning at NC State.

**Update 2007:** University Housing used the results of the Task Force as a foundation for village development. The report from the Task Force on Living and Learning was shared with campus partners and became the template for advancing living and learning villages in campus housing.

As of spring 2007, eight of ten colleges are involved in some manner with a Village. Currently, twenty-six percent (26%) or 2,229 beds of our residential space is devoted to living and learning villages. Between 2003 and 2006, 3,976 individual students have lived in, and participated in, the Living and Learning Villages. Many other students have benefited from association with the Villages.

2. The Provost, the Vice Chancellor for Student Affairs, the Director of University Housing and the academic deans assume responsibility for forging active partnerships between University Housing, faculty, and staff to realize the aims of this report.

**Update 2007:** Since 2003, three living and learning villages have been created: Women in Science and Engineering (WISE), Students Advocating for Youth (SAY), and the Honors Village. Each village is a partnership between an academic unit and University Housing. The newest village, the Arts Village, will be established in Fall 2007.

3. University Housing create a Steering Committee to oversee the implementation of the village vision, guiding principles, and Task Force Recommendations in conjunction with the development of Housing’s Master Plan. The Compact Planning process is a way to advance these partnerships.

**Update 2007:** The director staff of University Housing meets biweekly to review and update Housing’s Ten Year Plan. Program initiatives from the Villages are included in these planning efforts. Campus partners include codicils in their compact plans that support the growth and development of existing villages.

4. The Steering Committee enhance three existing housing programs using the village guiding principles, and launch two new living and learning villages within the 2004-2006 timeframe.

**Update 2007:** Between 2003 and 2005, three long-standing programs created residential villages: University Scholars, First Year College and Alexander International Program. Coming fall 2007, the Arts Village will become our seventh living and learning village. University Housing is in preliminary discussions with the Office of Waste Reduction/Recycling to implement a Green House (eco-building) on the King Village campus.

5. Each village creates an Administrative Council with students, faculty and staff to implement, operate and assess the various programs within the village.

**Update 2007:** Each Village has established an Administrative Council with students, faculty and staff to guide the mission and direction of the Village.
6. Consistent with the Physical Master Plan, and supported by market research by Anderson Strickler (see Appendix B), University Housing add 1,800 beds to campus housing by 2010, which would increase the service level to 30% of total enrollment. **Update 2007:** University Housing completed the planning and construction of Wolf Village an eight building, 1,204-bed apartment complex for juniors, seniors and graduate students. This facility was designed to support the village concept and includes a computer lab, numerous study and meeting rooms, a convenience store, fitness room, two volleyball courts and other inviting exterior gathering spaces. In addition, University Housing purchased Western Manor, an apartment complex of 118 units convenient to Centennial Campus. In addition, University Housing recognizes the importance of providing community and program space to support and enhance the Villages and services provided to our residents. Three such buildings have been constructed to meet those needs. In partnership with the Honors Program, the Honors Village Commons offers a classroom, computer lab, convenience store, kitchen and multipurpose room to support Honors Village activities. The First Year College Commons – to open in March 2007 – is the result of the partnership between University Housing and the First Year College. This commons offers a computer lab, four classrooms, offices for First Year College staff and others in a building on Cates Avenue across from Tucker and Owen halls, home to the First Year College Village. The ES King Village Commons opened in May 2006. Located in the heart of the family housing campus, this facility provides a lounge, kitchen, game room, patio and multipurpose room to support the families who live in King Village.

7. The creation of a student residential village on Centennial Campus, in light of the movement of large numbers of upper-class and graduate students to that campus. **Update 2007:** In March 2007, we initiated a study to assess the viability of constructing housing on Centennial Campus to support the colleges of Textiles and Engineering.

8. The Steering Committee issue a report in 2006 to evaluate the progress of the village Administrative Councils. **Update 2007:** Work began in fall, 2006 to evaluate the progress of the living and learning Villages. A five-year review will be held on April 20, 2007.

University Housing has accomplished the recommendations set forth above in the 2002 Living and Learning Task Force Report. 

Village Description

The First Year College (FYC) enables students to enter the University without immediately declaring a major, allowing a year for guided inquiry and exploration before a major is declared.

Students who enroll in FYC live in the Village located in Tucker and Owen residence halls and have the benefits of an enhanced living/learning experience. This village offers a close-knit, supportive environment and opportunities for friendships, academic development, and recreation within an intellectually challenging community.

Mission Statement for FYC Village

The First Year College in partnership with University Housing strives to create a seamless living and learning community that offers challenges and supports in the academic, personal, and social development of First Year College students. To that end, the First Year College Village is designed to enhance the college transition and learning experiences of residents by providing a safe and welcoming environment for residents to meet peers from diverse backgrounds and cultures, develop a sense of community, and connect to the larger University community.

Goal 1: Provide a living environment focused on supporting academic success of NC State.

Goal 2: Collaborate with campus community to promote student connections.

Goal 3: Foster personal growth by offering educational, leadership and social programs.

Academic Experience

In addition to the staff, one of the special benefits for some students in the FYC Village (Tucker/Owen) is the "linked" course. In an effort to link the out-of-the-classroom experience with the in-class, the First Year College joined forces with the First Year Inquiry (FYI) program. Not only are these students living together and taking one of these FYI courses, but they will also be concurrently enrolled in the same USC 101A (required FYC course, Introduction to University Education), which is taught by their FYC Academic Adviser. All of the "linked" courses will meet a General Education Requirement for graduation. All USC 101A courses and several of the FYI courses are currently taught in the Tucker or Owen classrooms located on the ground floor of each of these residence halls.

Date Founded

The First Year College officially became a Village in the fall 2004 semester. Between fall 2004 and fall 2006, 1,290 individual students have benefited from living in the First Year College Village. The new First Year College Commons will open during the spring 2007 semester.

Village Description

The University Scholars Village is located in Sullivan Hall and is the home of the Scholars Program. Scholars Village residents participate in a variety of cultural, service and social activities that promote intellectual engagement, personal growth and professional development. The village also provides residents with an enriched undergraduate experience through a range of carefully designed out-of-class experiences.

Mission Statement for Scholars Village

The Scholars Village is a dynamic living and learning community that enhances the intellectual exploration and personal development of its residents. The village, a collaborative effort between the University Scholars Program and University Housing, offers students a wide range of educational and social opportunities such as dinners with alumni, educational field trips, outdoor leadership experiences, stimulating conversations about current events, and discussions with distinguished faculty that ease the transition to college life and help students make connections with their peers, NC State, and the world around them.

Scholars Village Residents will:

Participate in a variety of cultural, service and social activities.

- Engage in meaningful dialogue about important social and political issues.
- Build personal connections through interaction with village staff and members of the NC State community.
- Have access to residential resources, including specially trained student and professional staff, computer lab, multimedia library, lounges and classroom.
- Explore opportunities for professional and leadership development.
- Create an inclusive residential environment.
- Be fully integrated into the University Scholars Program and foster a community of academic excellence.

Academic Experience

Students enroll in the Scholars Forum (HSS 110/111), a 0 credit hour course, for three semesters. The course features lectures, performances and presentations by accomplished speakers and performers. Scholars also have access to a wide range of courses which feature small class size, excellent students and instruction by distinguished faculty.

Date Founded

University Scholars Program officially became a Village in the fall 2004 semester. Between fall 2004 and fall 2006, 1,439 individual students have benefited from living in the University Scholars Village.

Village Description

The Honors Village, housed in Bagwell, Becton, and Berry residence halls, is a collaborative partnership between University Housing and the University Honors Program (UHP) that provides students the opportunity to learn and live in a vibrant academic residential community. This dynamic living and learning community is designed to promote and encourage faculty and student interaction outside the classroom setting by inviting student-identified faculty into our community to present on an area of expertise or personal interest.

The Village also helps new students to be successful in their transition to the University by providing a small student to staff ratio and assigning each an Honors Village Mentor. Student opportunities for involvement in the Honors Village include attending social, academic, or life skills programs as well as participation in the hall council.

Mission Statement for Honors Village

Sponsored by the UHP and University Housing, the Honors Village enhances their missions as well as the mission of NC State by providing a unique living-learning environment that will help participants apply class experiences directly to life experiences through intellectual and affective growth; personal, academic, and professional development; appreciation for demographic and intellectual diversity; and interaction with faculty and staff.

Honors Village Residents will:

- Take part in social, cultural, and academic programs, both formal and informal;
- Gain a sense of community - of belonging- and interact with faculty outside of class;
- Seek mentor/mentee relationships with faculty and staff;
- Appreciate diversity, especially as it allows them to better understand themselves and others, respect others’ differences; and experience personal growth; and
- Develop strategies that allow them to succeed academically and, consequently, professionally.

Academic Experience

The Honors program offers a series of Honors Seminars and workshops and requires a capstone research or artistic/creative experience in the discipline that focuses on the creation or expansion of new knowledge. Students will come to understand both the history and consequences of discoveries, inventions, new art forms, new ideas, and books.

Date Founded

The Honors Village officially started in the fall 2004 semester. Between fall 2004 and fall 2006, 413 individual students have benefited from living in the University Honors Village.

Village Description

The Women in Science and Engineering (WISE) Village, located in Lee Hall, is a living and learning community designed especially for first and second-year women in the Colleges of Agriculture & Life Sciences, Engineering, Natural Resources, Physical & Mathematical Sciences and Textiles. WISE provides women scientists and engineers the opportunity to network with each other in the classroom and beyond. The experience begins with a summer bridge program where participants meet their mentors, get to know each other, start to get acclimated to NC State, and have fun!

Mission Statement for WISE Village

The WISE Village is a living and learning community created for first- and second-year women engineers, mathematicians, statisticians and scientists. The program combines a group living experience with resident, upper-class mentors who will assist in the transition to university life. Fundamental program components include: promoting academic success, fostering the formation of lasting relationships with fellow students, professors and mentors, and providing experiential out-of-class experiences.

Village participants will begin to develop an identity as a scientist, engineer or mathematician, meet women with common interests and build lasting friendships, increase self-awareness through acknowledging personal strengths and weaknesses, explore career and personal goals, develop leadership skills, and maintain balance between academic and personal life.

Academic Experience

The WISE Village is a supportive environment in which future engineers and scientists engage in focused inquiry within their disciplines and begin to develop the skills and talents necessary to become successful professionals. The WISE Village provides a speaker series that highlights dynamic women with interesting and successful careers in science and engineering fields. There are many other opportunities for WISE women to enhance their academic success and build lasting relationships with fellow students, mentors, faculty and staff.

Other unique WISE Village features include block scheduling in core courses, tutoring, study groups, social and cultural events, professional development opportunities, faculty dinners, community service and K-12 outreach opportunities.

Date Founded

The inaugural year for the WISE Village was the 2004 – 2005 academic year. Between fall 2004 and fall 2006, 539 individual students have benefited from living in the WISE Village.

Village Description

In partnership between the College of Education and University Housing, the Students Advocating for Youth (SAY) Village is a place where you can help better the lives of young people. No matter what your career - lawyer, teacher, doctor, psychologist, engineer or entrepreneur - it doesn't matter. Currently, SAY students represent seven of the nine colleges at NC STATE. Advocating for youth spans many fields of study. We are looking for students who have an interest in contributing to the community, the university, and the lives of youth. The SAY residential village is currently located in Lee Hall. It will move to Syme Hall beginning in fall 2007.

Mission Statement for SAY Village

The SAY residential village is committed to providing future advocates and educators with the resources, skills and support to become successful youth advocates and critical thinkers. Students will benefit from faculty advisors, resident mentors, field trips and interaction with underrepresented students both within and outside of traditional educational settings. The SAY Village provides innovative programs that personalize the college experience, especially for first year students.

What is Youth Advocacy?

Youth Advocacy involves educating advocates about the educational, social, political, multi-cultural and technological aspects that impact the lives of children both locally and globally. Advocates make improvements in these areas with deep concern for social justice. Participants will enroll in ED 150 for the fall semester and ED 151 for spring semester. Because our children’s health, safety, education, and security are deteriorating at an alarming rate, youth advocates take an informed stand as activists by not only caring about problems but also addressing them with energy and intelligence.

Date Founded

The SAY Village officially started in the 2004 fall semester. Between fall 2004 and fall 2006, 118 individual students have benefited from living in the SAY Village.

Village Description

The Alexander Global Village (AGV) is located in Alexander Hall and introduces students in the Village to people from differing backgrounds, experiences, countries, and viewpoints. The community’s focus is one of global awareness, understanding, and experience. The program features the pairing of international students and American students as roommates, provides Student Ambassadors to assist in acclimating international students to American culture, an educational programming series on cultures of the world, and discussion programs focusing on global awareness issues.

Mission Statement for AGV Village

The College of Humanities and Social Sciences (CHASS), in partnership with University Housing, strives to create a seamless living and learning community that exposes residents to differing cultures and viewpoints and creates awareness of world issues. To that end, the Alexander Global Village has the following goals:

Goal 1: provide a living and learning environment focused on introducing International Students to American Culture.

Goal 2: provide a living and learning environment that exposes American students to other cultures.

Goal 3: provide a living and learning environment that educates the entire Alexander community about global issues.

AGV Village residents will:

- American residents: be willing to share a room with an International student
- International students: be willing to share a room with an American student
- Be involved in hall programs, activities, learning experiences, and outings
- Participate in educational and discussion forums focusing on global awareness issues
- Be open and enthusiastic about cultural awareness and diversity
- Connect and interact regularly with other AGV residents
- Be flexible and patient with differences in living and communication styles
- Work together with AGV staff to resolve interpersonal and facility-related issues
- Be willing to share and help each other acclimate to different experiences

Date Founded

Since 1975, Alexander Hall has had a long history of offering an international focus for residents. In the fall 2005 semester, the Alexander International Program became the Alexander Global Village. Between fall 2005 and fall 2006, 177 individual students have benefited from living in the AGV Village.

Village Description

University Housing and ARTS NC STATE are collaborating to establish the Arts Village, opening Fall 2007. The Arts Village will be a vibrant, well-rounded residential community housed in Turlington Residence Hall that unites students from various personal and academic backgrounds who share and actively pursue their interests in visual arts, music, theatre, creative writing and dance. The Arts Village will be conveniently located near Price Music Center, Stewart Theatre, and the Gregg Museum of Art & Design.

The Arts Village will encourage residents to express their creativity, engage with the arts on campus and in the community, interact with NC STATE faculty and staff, and serve as a creative resource for the campus community as a whole. The Arts Village will introduce residents to the six visual and performing arts programs of ARTS NC STATE and provide significant and exciting opportunities for students to develop their talents and enjoy professional and student performances and exhibitions.

Academic Experience

The Arts Village will unite students from various personal and academic backgrounds who have a passion for the arts and expose them to theater, visual arts & crafts, music and dance. Participation in the Village will provide them with significant and exciting opportunities to develop their creativity, engage with the arts on campus and in the community, interact with NC State faculty and staff, and serve as a creative resource for the campus community as a whole.

Arts Village Residents will:

- Attend four residence hall sponsored programs per semester.
- Successfully complete ARS 253 Arts At NC State during your fall semester as a member of the Arts Village.
- Register for the Arts Forum in the spring semester. As part of the Arts Forum, you will attend 10 ARTS NC STATE or Triangle arts performances/events per semester; free tickets and transportation will be provided to these events.

Date Founded

The Arts Village is the newest living and learning village slated to open beginning in the fall 2007 semester and will have the capacity to house 60 students.

Village Comparisons

The following section presents a snapshot of the Villages in a side-by-side comparison based upon the following topics. A complete report for each Village is available in a PDF format at http://www.ncsu.edu/housng/communities/taskforce.php.

Task Force – Living & Learning Outline
I. Village General Statistics
   A. Date established
   B. Demographics
      a. Number currently enrolled
      b. Location
      c. Gender
      d. Class
      e. Ethnic
      f. College
   C. Percent change since established
   D. History and projected growth
II. Annual Operating
   A. Total costs by contributor and function FY06
      a. Service/dollars in kind
   B. Projected FY08 operating costs
III. Village Expectations
   A. 1st year participants
   B. 2nd year participants
IV. Programming '05-'06
   A. Number and type of Village programs
   B. Significant programs
   C. Village initiatives

- Same as 2005-06

- First Year College $8,000 to Support RM Costs

- University Housing $25,000

- Housing Programming $25,000

- SVA Meal Plans $8,800

- SVA Salary for Scholars Forum $8,500

- Scholars Council $3,500

- Outdoor Leadership $3,000

- Field Trips $4,000

- Total $35,000

- Housing USP Salaries $115,281

- Housing Programming $76,000

- Housing Programming $25,000

### Growth of the Village will fill Alexander Hall for fall 07

- Additional Villages and upper division students moving to Wolf Village
| Village Expectations | 1st Year Participants | Minimum 2 Speakers Series events/semester  
Minimum 3 other programs/events per semester  
Minimum 1 community service activity or official WISE committee/semester | Learn what it means to advocate for youth  
Become familiar with the organizations that function in the service of youth  
Understand the various diversity, cultural, and ethical issues that exist within youth advocacy  
Be part of a supportive, interactive, cooperative, and educational living community  
Enroll in ED 150 in fall and ED 151 in spring  
Participate in 2 programs per semester  
Attend 2 Leadership Development Series (LDS) workshops per semester  
Minimum 1 community service activity per semester.  
Participate in program assessment.  
Contribute to the success of the end-of-the-year SAY Rally. | Enroll in an HON Seminar  
Remain academically eligible (3.25 cumulative GPA)  
Participate in Fellow Family Cluster Events  
Participate in Village Committees | Prior to fall 2007, FYC students were encouraged to live in the Village  
Starting fall 2007, on campus FYC students are required to live in the Village.  
Enroll in USC 101A for fall  
USC 102A for spring  
Optional linked First Year Inquiry courses | Students must maintain a GPA of 3.25. First-year students who have GPAs between 2.75 and 3.24 are allowed a one-semester probation period to improve their GPAs to 3.25. Students must enroll in the Scholars Forum  
Village residents are also encouraged to register for Honors and First Year Inquiry courses | American residents: be willing to share a room with an International student  
International students: be willing to share a room with an American student  
Be involved in hall programs, activities, learning experiences, and outings  
Participate in educational and discussion forums  
Be open and enthusiastic about cultural awareness and diversity  
Interact regularly with AGV residents  
Be flexible and patient with differences in living and communication styles  
Work together with AGV staff to resolve interpersonal and facility-related issues  
Share and help each other acclimate to different experiences |
| | 2nd Year Participants | Minimum 1 Speakers Series event/semester  
Minimum 2 other programs/events/semester | 1st year expectations plus:  
Work directly with local organizations to implement tools and skills for individual and policy change  
Participate in campus training, workshops, and an end-of-the-year advocacy summit  
Contribute to the success of the end-of-the-year DAY Colloquium for students | Enroll in an HON Seminar  
Remain academically eligible (3.25 cumulative GPA)  
Participate in Village events  
Students are encouraged to participate and serve on Village Committees | Not Applicable | Complete three semesters of the Scholars Forum  
Opportunity to take a leadership role in the village | Same as 1st year participants |
## Number & Type of Programs

<table>

## Key Findings

| WISE participants | Annual SAY Retreat needed to be restructured | Lee Hall was determined not to be conducive to village life for a community the size of SAY | Additional field sites were needed | GPA is higher for residents of the Village versus non participants | Mentor program not fulfilling needs of entire community | Mentor staff struggled with role expectations, specifically in relation to programs and RA responsibilities | Survey results indicate a desire for more study-tour experiences | Need for freshman leadership opportunities | Rising Juniors and Seniors leave community to seek a room of their own within a community of upper-class students | Creation of a Village resident database for longitudinal studies as well as future programs | GPA: Linked FYC/FYI: 3.076 Non-Linked/no FYI: 2.759 Fall 2006 SES: Village students report using PackStudy, Writing & Speaking tutorials, and computer lab in Tucker significantly more than Non-Village students Village students report spending more time studying with friends/classmates than Non-Village students Village students report that they engaged with other students in discussions about diversity more frequently than Non Village students Village students report more contact with faculty (to discuss their academic program, socialize, participate with other students in discussion outside of class) significantly more than Non Village students Village students report attending more residence hall programs than Non Village students | Village residents have evaluated the programs quite positively. Students claim increased understanding of the topics covered, indicate that they were able to express their feelings and say that the events increased their interest in the topics discussed |
| STEM majors at a higher rate than non-WISE women | Curriculum and instruction modifications were needed | | | | | | | | | | | | |
| WISE participants in Engineering were retained at a higher rate than non-WISE participants | For AMS, the percentage of WISE women retained in the college is greater than women not in WISE | In CALS, a greater percentage of women in the WISE program were retained at the end of the first and fourth semesters than for non-WISE women | Annual SAY Retreat needed to be restructured | Lee Hall was determined not to be conducive to village life for a community the size of SAY | Additional field sites were needed | GPA is higher for residents of the Village versus non participants | Mentor program not fulfilling needs of entire community | Mentor staff struggled with role expectations, specifically in relation to programs and RA responsibilities | Survey results indicate a desire for more study-tour experiences | Need for freshman leadership opportunities | Rising Juniors and Seniors leave community to seek a room of their own within a community of upper-class students | Creation of a Village resident database for longitudinal studies as well as future programs | GPA: Linked FYC/FYI: 3.076 Non-Linked/no FYI: 2.759 Fall 2006 SES: Village students report using PackStudy, Writing & Speaking tutorials, and computer lab in Tucker significantly more than Non-Village students Village students report spending more time studying with friends/classmates than Non-Village students Village students report that they engaged with other students in discussions about diversity more frequently than Non Village students Village students report more contact with faculty (to discuss their academic program, socialize, participate with other students in discussion outside of class) significantly more than Non Village students Village students report attending more residence hall programs than Non Village students | Village residents have evaluated the programs quite positively. Students claim increased understanding of the topics covered, indicate that they were able to express their feelings and say that the events increased their interest in the topics discussed |
| For AMS, the percentage of WISE women retained in the college is greater than women not in WISE | Annual SAY Retreat needed to be restructured | Lee Hall was determined not to be conducive to village life for a community the size of SAY | Additional field sites were needed | GPA is higher for residents of the Village versus non participants | Mentor program not fulfilling needs of entire community | Mentor staff struggled with role expectations, specifically in relation to programs and RA responsibilities | Survey results indicate a desire for more study-tour experiences | Need for freshman leadership opportunities | Rising Juniors and Seniors leave community to seek a room of their own within a community of upper-class students | Creation of a Village resident database for longitudinal studies as well as future programs | GPA: Linked FYC/FYI: 3.076 Non-Linked/no FYI: 2.759 Fall 2006 SES: Village students report using PackStudy, Writing & Speaking tutorials, and computer lab in Tucker significantly more than Non-Village students Village students report spending more time studying with friends/classmates than Non-Village students Village students report that they engaged with other students in discussions about diversity more frequently than Non Village students Village students report more contact with faculty (to discuss their academic program, socialize, participate with other students in discussion outside of class) significantly more than Non Village students Village students report attending more residence hall programs than Non Village students | Village residents have evaluated the programs quite positively. Students claim increased understanding of the topics covered, indicate that they were able to express their feelings and say that the events increased their interest in the topics discussed |

**Key Findings**

- WISE participants persist in STEM majors at a higher rate than non-WISE women.
- WISE participants in Engineering were retained at a higher rate than non-WISE participants.
- For AMS, the percentage of WISE women retained in the college is greater than women not in WISE.
- In CALS, a greater percentage of women in the WISE program were retained at the end of the first and fourth semesters than for non-WISE women.

**General Findings**

- GPA: Linked FYC/FYI: 3.076 Non-Linked/no FYI: 2.759
- Fall 2006 SES:
  - Village students report using PackStudy, Writing & Speaking tutorials, and computer lab in Tucker significantly more than Non-Village students.
  - Village students report spending more time studying with friends/classmates than Non-Village students.
  - Village students report that they engaged with other students in discussions about diversity more frequently than Non Village students.
  - Village students report more contact with faculty (to discuss their academic program, socialize, participate with other students in discussion outside of class) significantly more than Non Village students.
  - Village students report attending more residence hall programs than Non Village students.

**Key Findings**

- The Washington DC Trips are a huge success; students enjoy interaction with the professors while learning about politics and journalism.
- Students would like more organized weekend excursions.
- International Students are happy with the sense of community.
- The Alexander Ambassador Program is well received.
- American students feel that the sense of community is strong; the response was not as positive as that of the International Students.
- Efforts are made to help establish the American/International roommate connections; students would appreciate more assistance in engaging in initial communication.
- AGV is making strides at teaching the entire community about global awareness issues; more effort needs to be put towards reaching this goal.
Retreat organized into two separate segments: interactive get-to-know-you session and introduction to advocacy theory.
CED assisted to modify the SAY class (ED 150/151); additional, smaller sections and the inclusion of a “Toolkit” text.
Village to move to Syme for 2007-08.
Field partnerships were established at Fred Olds Elementary and the Exploris Museum after-school program.

Program support
Education Advisors and RAs have successfully worked on programming and residential issues.
SAY Program Graduate Assistant and Lee Hall Residence Director work on hall programming and residential issues.

Leadership is a shared responsibility between Housing and University Honors Program.
Aids in the recruitment and retention of students.
Location of UHP and Housing administrative offices integral to Village success.
Addition of Honors Village Commons has allowed for instruction and programming space.
key to the success of the Village.
House resources complement restricted funds provided by the UHP.

FYC presents at conferences about the partnership and has found that our FYC and Housing partnership is one that makes other institutions envious.
The development of the FYC Village is an ongoing process that all players involved in, are committed to.
By combining FYC and Housing’s person power and funding, we are able to offer enhanced programs and stronger student support than either department could accomplish alone.

FYC requires students to live in the Village beginning Fall 2007.
PackStudy Tutoring Services.

SVA programming has been expanded.

University Housing staff hire, train and supervise the Ambassadors.
Fund 95% of the initiatives, scheduled by the AGV Council Meetings: prepare the agendas, facilitate the meetings, complete the minutes, drive the programmatic aspect of the Village, and determine assessment initiatives.
CHASS recruits faculty to present in the Village and attend student trips.
<p>| Administrative Council '05-'06 | Role | The Operating Council is comprised from partners of WISE who oversee the direction and goals of the program | The role of the Administrative Council is to carry out the administrative functions and educational operation of the program: The instruction and curriculum development of ED150/151 Coordination and implementation of assessment plan Development of residential component Field experiences Budget management New student application process Education Advisor selection, training, and supervision Served in an advisory role during the Quad renovation Developed initial vision for community The FYC Village Advisory Council upholds our stated Mission and assessment, and drives the direction of the Village and its programs to that end Policy decisions related to the USP and the University Scholars Program Advisory Committee The committee meets 3-4 times each semester Includes representatives from all of NC State’s colleges, University Housing, the Division of Student Affairs, the Caldwell Fellows, Park Scholarships programs and two USP students All goals were met Service learning needs further development. Time, staffing resources, and stable partners in the effort have been our obstacles All goals were met Additional concentration needs to be made on educating the AGV community about Global Awareness Issues The faculty-lead trip abroad to Florence Italy was canceled for Spring 2007 due to the cost of the trip and lack of funding | Meet bi-weekly to determine AGV direction and implement ideas Sub-committees meet on the “off” weeks |
|-----------------------------|------|---------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------|---------------------------------------------------------------|---------------------------------------------------------------|
| Number of Council Meetings | 10  | 8  | 4  | 19 plus sub-committee meetings on the “off” weeks | USP and Housing met 6 times | 19 |
| Goals/Objectives Not Met and Why | Tracking graduation rates Re-evaluating the assessment plan to see what is feasible and will yield the appropriate data for the Village | Re-establishing the Advisory Council to ensure that the vision and direction of the village remain current from year to year | All goals were met | Service learning needs further development. Time, staffing resources, and stable partners in the effort have been our obstacles | All goals were met | Additional concentration needs to be made on educating the AGV community about Global Awareness Issues The faculty-lead trip abroad to Florence Italy was canceled for Spring 2007 due to the cost of the trip and lack of funding |
| Steps Needed to Advance the Village | Implementing Sophomore Experience including Sophomore Project Sophomore mentors More corporate sponsorship | A smooth transition is needed from Lee to Syme | Outside funding for scholarships and special opportunities Development of an upper-class experience in Berry Hall Support for additional professional staff | Regular issues of the Village Compass newsletter Presence on WolfBytes Additional “linked” courses Graduate student live in facility to assist with program implementation | Enhance the value of living and learning in the Scholars Village Expand the range of programming offered in the Village Develop partnerships with other villages and units on campus Design survey/assessment instruments for residents | Complete AGV Classroom Hire full time Community Director to lead the Turlington &amp; Alexander Villages Build a Faculty in Residence Apartment in Alexander Hall Additional funding for AGV trips/excursions Discuss with CHASS idea of expanding partnership to include the College of Management |
| Resources Needed to Enhance the Village | Study whether to enlarge the Village to allow Juniors Continued upkeep and updating of the computers in WISE Lounges Kitchen supplies Corporate sponsorship to underwrite sophomore experience project Corporate funding to make up for loss of funds from ALCOA’s grant for mentors | Continue marketing/PR assistance, including expanded website and application process | Additional financial resources to expand current programs and create and implement new experiences for residents Reassignment of rooms in the community to singles to retain and be more attractive to upper-class students | Additional graduate students or a part/full-time professional staffing to address Village growth Graduate student or live-in faculty apartment will require significant funding | The lack of common space makes it difficult to fully integrate programming in the building; the building lacks sufficient indoor and outdoor spaces for informal and social and academic gatherings In the short term, USP and University Housing staff plan to enhance several lounges to reflect village goals, themes and programming Hope to schedule courses in the Village in coming years to enhance its status as an academic and intellectual center for residents Longer-term goals will be defined as plans to redevelop West Campus move forward | Increase Ambassador Stipend Construction funds for Alexander Faculty in Residence Apartment Funding for a CHASS-lead student trip Additional CHASS resources to help coordinate Village initiatives Additional graduate staff to assist in planning and chaperoning AGV trips Funding for events for students enrolled in IDS 193 class Funding for one Dinner Discussion each semester with notable scholar Funding for trips around Raleigh and North Carolina |</p>

<tr>
<td>Job description</td>
<td>The WISE resident mentor enhances the experience for all WISE students. This includes assisting first-year students in transition from high school to college through mentoring, tutoring, and community building. Mentors should encourage WISE sophomores to continue making connections within WISE and beyond as well as assist them in finding leadership, internship, research, and other kinds of opportunities that will help them develop.</td>
<td>SAY Education Advisors serve as paraprofessionals in the SAY Education Village and are supervised jointly by the Residence Director and College of Education Administrator. The SAY Education Advisor assists both University Housing and the SAY Education Village by working with first year students in the residence hall and in the classroom.</td>
<td>Honors Village Fellows (HVFs) serve the important role of assisting first year residents of the Honors Village in the transition to university life. In addition to mentoring first year students, HVFs will play an active role in sustaining the Village community by co-chairing one village committee. The University Honors Program (UHP) Associate Director and the East Campus Assistant Director will jointly supervise Honors Village Fellows.</td>
<td>The Resident Mentor (RM) plays a key role in providing a comprehensive program that blends the co-curricular with the academic. Resident Mentors are essential to develop an educational environment in which all residents are assisted in achieving their unique potential. While the Resident Mentor's primary function is to serve as a model of good academic and social behavior, the RM also serves other key functions in the success of our program, such as assisting in the USC 101A/102A classes and planning educational programs in and outside of the halls.</td>
<td>Scholars Village Assistants serve residents of the Scholars Village by helping the University Scholars Program and University Housing achieve Village programming goals and learning outcomes. They strive to build community within the Village and serve as an information and peer resource for Scholars Village residents. The USP and University Housing Staff designate representative staff members who will supervise Scholars Village Assistants.</td>
<td>The AGV Alexander Ambassador serves the important role of creating a positive growth environment for residents by providing programs, services, facilities, and staff that promote student development for all AGV students. This includes: Serve as member of Central Campus staff Assist with student welcome and orientation Provide programs/events to develop AGV residents Promote academic and intellectual growth of residents</td>
